SUMMARY

Computer Science student at Sindh Madressatul Islam University who builds software through academic and personal projects. Focused on Java and Spring Boot, with hands on work in Object Oriented Programming, REST APIs, Spring Data JPA, SQL, database integration, and layered application architecture. Also comfortable with JavaScript, React, Node.js, MySQL, and MongoDB, with projects that demonstrate practical application of these technologies. Looking to start my career as a Java Developer and grow within a professional software engineering team.

PROJECTS

Library Management System

- Console app with layered architecture.
- Book/user management, 14-day borrowing, overdue tracking, search, reports
- HashMap O(1) lookups, custom exceptions, JSON persistence
- Extensible User hierarchy (Student/Librarian) via inheritance
- Github: <https://github.com/Sunder-Kumar/Library-Management-System>

Storyblok AI Chatbot (Visual Editor Integration)

Built an AI powered chatbot using Next.js, React, Node.js, and Storyblok CMS. Integrated AI responses through external APIs and enabled real time FAQ assistance inside the Storyblok Visual Editor. Implemented dynamic content retrieval and responsive UI components.

- Github: https://github.com/Sunder-Kumar/storyblok_chatbot

Employee Management System

Spring Boot 3 REST API with JPA relationships (Department-Employee), search, pagination, sorting, validation, and global exception handling. Clean layered architecture(Controller-Service-Repository). Tech: Spring Boot, Spring Data JPA, H2, Lombok, Maven.

- Github: <https://github.com/Sunder-Kumar/Employee-Management-System>

Technical Skills:

- **Languages:** Java, Javascript, C, SQL
 - **Frontend:** React, HTML, CSS
 - **Backend:** Spring boot, REST APIs, Node.js
 - **Database:** MySQL, MongoDB
 - **Tools:** Git, GitHub, Postman, Maven
-

WORK EXPERIENCE

Freelance | Remote

2025 – Present

- Developed responsive web applications and custom features for projects received through personal and professional networks.
- Built and integrated REST APIs, implemented frontend functionality, and fixed bugs based on project requirements.
- Worked directly with project owners to understand requirements, implement features, and deliver solutions within agreed timelines.
- Used React.js, JavaScript, Node.js, Git, and GitHub to develop and maintain project code.

LEADERSHIP & ACTIVITIES

Campus Ambassador — SuperComp’24

Represented SuperComp Bahria at SMIU, a premier tech competition, at Bahria University. Promoted participation across key events such as Query Quest, Speed Debugging, UI/UX Design, Essay Writing, and Quiz Challenge. Engaged with students and faculty to boost visibility, encouraging innovation and competitive tech engagement on campus.

Certifications

- SQL (Advanced) – HackerRank

EDUCATION

Bachelor of Computer Science

Feb 2023 - Feb-2027

Sindh Madressatul Islam University
